

## A New Pre-K Class at RSM-MetroWest

Math for 4-year-olds? Really? Indeed, the earlier the better! Math games and activities for our youngest students help develop their analytical thinking, make them comfortable with math from the start, and help them succeed better later on in school and beyond.

The new **RSM Sandbox**, a one-hour long, once per week **Pre-K class** packed with **math games and activities**. Children solve logic and number puzzles, work with patterns, solve mazes, play with shapes, learn to use math language and symbols, and much more. But most importantly, they learn to love math!

**When:** Thursdays, 1-2 PM or Sundays 10:15-11:15 starting October 2017.

**Who can join:** The child must be 4 years old in October 2017. We expect that kids who join Pre-K are not afraid to spend some time with a few other kids and a teacher without a parent (or quickly learn it) and know how to use a pencil. No prior math knowledge is expected 😊!

**Cost:** \$1,080 for 36 classes.

**To register:** Please visit our website and follow the ENROLL button!

**TO LEARN MORE, COME TO THE PRE-K INFORMATIONAL SESSION**

**AT OUR OPEN HOUSE SEPTEMBER 15, 2017, 4:45 – 5:15 PM.**

**BRING YOUR 4-YEAR OLD!**
